UVOD

Matična knjiga engleskog punokrvnjaka Volumen 2., dodatak 1., obuhvaća uzgojnu aktivnost pasmine u periodu 2011. - 2012. godine, uključujući jedan zasebni dodatak (Dodatak Volumenu 2) u kojem su registrirane uzgojne aktivnosti za prethodni period.

Kao i do sada nastaviti će se rad na priznavanju preostale populacije sa konačnim ciljem definiranja statusa svih registriranih konja. Svi dodatci i promjene u uzgoju ove pasmine u Republici Hrvatskoj biti će zabilježene u slijedećim izdanjima matične knjige engleskog punokrvnjaka.

FOREWORD

Croatian Thoroughbred Stud Book Volume 2, supplement 1 includes breeding activity in the period of 2011-2012, including one Addendum (Addendum to Volume 2) which records breeding activities from the recent period.

The efforts to verify the remaining population shall continue with the goal to define the status of all registered horses. All amendments in Thoroughbred breeding in the Republic of Croatia shall be recorded in the following editions of the Croatian Thoroughbred Stud Book.

PRAVILA O VOĐENJU MATIČNE EVIDENCIJE KONJA PASMINE ENGLISKI PUNOKRVNJAK U REPUBLICI HRVATSKOJ

1. UVOD

- I) Za vođenje matične knjige pasmine konja engleski punokrvnjak (u daljnjem tekstu CROSB – Hrvatski Stud Book) odgovorna je Hrvatska poljoprivredna agencija (u daljnjem tekstu CROSB – Croatian Stud Book Authority) kao i za redovito izdavanje CROSB.
- II) CROSB sadrži:
 - a) Indeks svih grla upisanih u CROSB,
 - b) Popis matičnih kobila i potomaka,
 - c) Popis matičnih pastuha,
 - d) Popis uvezenih konja,
 - e) Popis izvezenih konja,
 - f) Popis uginulih konja,
 - g) Popis imena grla, koja su u prošlom izdanju bila upisana bez imena,
 - h) Dodatke i ispravke pogrešaka,
- III) Sve životinje upisane u CROSB, kako to zahtjeva ISBC (International Stud Book Committee), upisane su pod životnim brojem koji se upotrebljava u svojoj evidenciji u uzgoju, natjecanju i prometu.
- III) Pri vođenju genealoških podataka CROSB poštuje sva ISBC pravila i ugovore, kako to u člancima 3., 4., 12., 13., 14. i 15. propisuje Međunarodni sporazum o uzgoju i galopskim trkama (International Agreement on Breeding and Racing - IABR).

2. UPIS U CROSB

- I) U CROSB mogu biti upisana slijedeća grla engleske punokrvne pasmine:
 - a) koja su rođena u Hrvatskoj, a potomci su pastuha i kobila koji su i sami upisani u matičnu knjigu priznatu od strane ISBC-a,
 - b) koja su upisana kao ždrebad u neku od priznatih matičnih knjiga i na pravilan način uvezena u Republiku Hrvatsku.

3. IDENTITET GRILA

- I) Prije nego se pastuh ili kobila registrira u CROSB potrebno je utvrditi - potvrditi identitet toga grla:
 - a) Vlasnik grla mora priložiti dokumentaciju za upis pastuha ili kobile u popis matičnih pastuha ili kobila u kojem je navedeno: ime, boja, starost, spol, porijeklo, uzgajivač, vlasnik, zemlja porijekla, podaci o promjenama vlasništva, te način označavanja (vruci žig, transponder i dr.).
 - b) CROSB provjerava podatke o svim dotadašnjim vlasnicima na osnovi identifikacijskog dokumenata (ID) i urednih dokumenata o kupoprodaji.
 - c) CROSB provjerava opis grla.
 - d) Uzorak dlake za analizu uzima ovlaštena uzgojna organizacija, a krvi ovlaštena veterinarska organizacija. Analiza se provodi u ovlaštenom laboratoriju.

- II) U slučaju da se radi o uvezenom grlu, rođenom u inozemstvu, potrebno je na uvid priložiti Identifikacijski dokument (ID). Izvoznu potvrdu (Export certifikat) uvezenog grla kao i rezultat testiranja roditeljstva, CROSBA dobiva izravno od SBA države iz koje je grlo uvezeno. Podaci ID moraju biti istovjetni podacima u Izvoznoj potvrdi. Izvoznu potvrdu CROSBA pohranjuje u matičnu evidenciju.
- III) Za grla uvezena na određeno vrijeme (kraće od 9 mjeseci) potrebno je priložiti ID u koji je nadležan SBA u odgovarajuću rubriku ovjerio putovanje u Hrvatsku ili osigurati da SBA države izvoznice u kojoj je grlo zadnje registrirano izda dozvolu za uzgojnu migraciju (BCN).
- IV) Životinja ne može biti registrirana nakon smrti, izuzev u slučaju procjene CROSBA i to samo ukoliko postoji tipizirana DNK ili blood-type i ako je ista verificirana od strane nadležne ustanove.

4. REGISTRACIJA PROMJENE VLASNIŠTVA

- I) CROSBA će registrirati promjene vlasništva samo u slučaju predočenja Identifikacijskog dokumenta grla i potvrde o vlasništvu, te uz odgovarajući dokaz o promjeni vlasništva koji CROSBA smatra prihvatljivim. CROSBA prilikom promjene vlasništva grla zahtijeva podatke o imenu, adresi, državljanstvu i kontaktu novog vlasnika grla.
- II) Promjenu vlasništva moguće je registrirati nakon podmirivanja naknade promjene vlasništva.
- III) Svaka promjena vlasništva registrira se u ID-u grla koji je predmet prodaje.
- IV) Vlasništvo nad kopitarom može se registrirati isključivo na jednog vlasnika koji je odgovoran za sve podatke i promjene o grlu prema CROSBA. Ako je grlo u vlasništvu dvaju ili više vlasnika, isti vlasnici međusobne odnose uređuju pravnim ugovorom koji je obvezno dostaviti u CROSBA.

5. REGISTRACIJA ŽDREBADI ROĐENE U HRVATSKOJ

5.1. Postupak registracije:

- I) Za registraciju potomstva rasplodnih kobila u CROSB-u uzgajivač mora ispuniti sljedeće uvjete:
 - a) U CROSB priložiti uredno popunjenu Prijavu oždrebljenja zajedno s Potvrdom o pripustu s upisanim danima svih pripusta u ciklusu estrusa u kojem je kobila oplodena u protekloj sezoni. Pripusni dnevnik mora u roku (do 30. rujna tekuće godine opasivanja) biti dostavljen u CROSBA na ovjeru. Prijavu oždrebljenja vlastoručnim potpisom ovjerava vlasnik/najamnik kobile, a Potvrdu o pripustu i Pripusni dnevnik vlasnik/najamnik pastuha.
 - b) U slučaju da je kobila ili pastuh u najmu, navedenu dokumentaciju (prijava oždrebljenja, potvrda o pripustu, pripusni dnevnik) može ovjeriti najamnik grla samo ako je prethodno u CROSBA prosljedio pravno ovjeren ugovor o najmu između vlasnika i najamnika kobile ili pastuha. Najamnik grla prilikom registracije preuzima sve obveze dostavljanja uzgojne dokumentacije u CROSBA prema navedenim pravilima.
 - c) Prethodno svakom pripustu vlasnik/najamnik pastuha obvezan je provjeriti identitet kobile usporedbom s pripadajućim identifikacijskim dokumentom kopitara (ID). Za svu vjerodostojnost podataka u potvrdi o pripustu i potvrđivanje identiteta kobile pri pripustu jamči vla-

snik/najamnik pastuha vlastoručnim potpisom. Vlasnik pastuha potpisuje izjavu da je pripust proveden na prirodan način te da nije proveden postupak umjetnog osjemenjivanja, embriotransfera, kloniranja ili bilo koji drugi oblik genetske manipulacije koji ovdje nije naveden.

- d) Ako je kobila pripuššana pod dva ili više pastuha, obvezno je priložiti sve Potvrde o pripustu.
 - e) Prijavu oždrebljenja treba u CROSBA dostaviti najkasnije 28 dana po oždrebljenju. U prijavi moraju biti ispravno i u potpunosti popunjeni svi traženi podaci (datum rođenja, spol, ime ždrebeta, podaci o ocu i majci, vlasništvo te detaljan opis ždrebeta koji obuhvaća opis boje, bijelih oznaka i zvrkova dlake i dr.). Prijavu oždrebljenja vlastoručnim potpisom mora ovjeriti vlasnik/najamnik kobile. Ime grla moguće je dati odmah po rođenju (3 prijedloga), a najkasnije do ulaska u reprodukciju ili natjecanje.
 - f) U slučaju da se radi o dvojcima, to je potrebno naznačiti u prijavi. Svako ždrijebe se prijavljuje na zasebnoj prijavi oždrebljenja. Potvrda o pripustu je samo jedna, a sva tri dokumenta dostavljaju se zajedno.
 - g) Prijava oždrebljenja dostavlja se u i slučaju da je ždrijebe rođeno mrtvo ili je uginulo nakon rođenja. U slučaju da je kobila ostala jalova potrebno je prijaviti jalovost uz priloženu Potvrdu o pripustu. Ako je kobila bila pripuššana i nakon toga uginula, uz ovjerenu prijavu uginuća potrebno je priložiti potvrdu o pripustu. Prijava oždrebljenja dostavlja se i ako je kobila bila pripuššana pod pastuhe drugih pasmina.
 - h) U slučaju da vlasnik kobile ne dostavi spomenutu dokumentaciju, u CROSB rubrici o potomstvu kobile za tekuću godinu, biti će upisano nema povratne informacije („no return“).
 - i) Registrirati se može samo ždrebad koja je prijavljena s potpunom dokumentacijom i za koju je urađena analiza testiranja roditeljstva.
 - j) Na osnovi zaprimljene dokumentacije novorođenog grla se obavlja testiranje roditeljstva (DNA), označavanje grla, Zapisnik o identifikacijskom pregledu kopitara i registracija grla u CROSB-u.
 - k) Dokaz o porijeklu ždrebeta na osnovi DNK analize ovlaštenu laboratorij dostavlja u CROSBA, koji ga arhivira. Nakon zaprimanja potvrde o verifikaciji porijekla, učinjenog Zapisnika o identifikacijskom pregledu kopitara i trajnog označavanja grla transponderom, ždrebetu se može temeljem uzgojne dokumentacije izdati ID.
 - l) Plaćiti naknadu za sve obavljene poslove u postupku registracije ždrebeta.
- II) Uvjeti gore navedenog članka vrijede za ždrebad koja je prijavljena na regularan način u CROSBA u roku od 28 dana od rođenja.
 - III) CROSBA neće uvažiti zahtjev za registraciju potomstva kobila ako pravni vlasnik kobile nije na propisan način upisan u ID.
 - IV) Svu ždrebad rođenu u Hrvatskoj ovlaštena osoba CROSBA označava dijagramskim i tekstualnim opisom, te aplikacijom transpondera.
 - V) Svu dokumentaciju koju je obvezno dostaviti u CROSBA u cilju registracije identiteta nužno mora popuniti isključivo vlasnik kobile. U slučaju da je kobila u najmu, sve obveze navedene u ovom članku preuzima pravno reguliran najamnik kobile, te će u slučaju oždrebljenja takve kobile biti registriran kao uzgajivač novorođenog ždrebeta.
 - VI) Uzgajivač novorođenog ždrebeta je pravna ili fizička osoba koja je vlasnik kobile u trenutku oždrebljenja.

5.2. Registracija ždrebadi, potomaka pastuha pripuštanih u inozemstvu:

- I) Ako je novorođeno ždrijebe potomak pastuha koji je registriran u inozemstvu, vlasnik kobile dužan je uz prijavu oždrebljenja dostaviti originalan primjerak Potvrde o pripustu koji izdaje vlasnik/najamnik pastuha.
- II) Registracija ždrebeta sukladna je Postupku registracije prema članku 5.1.

5.3. Naknadna registracija ždrebeta:

- I) Za registraciju ždrebeta za koje postupak registracije nije bio pravilno izvršen prema uvjetima članka 5.1., uzgajivač može upisati ždrijebe pod slijedećim uvjetima:
 - a) Istovjetnost ždrebeta mora biti nedvosmisleno potvrđena ovjerenom izjavom vlasnika. Svi potrebni dokumenti, s ispravnim vlastoručnim potpisima kako je regulirano u ovim pravilima, moraju se dostaviti u CROSB, zajedno s dokazom o slijedu vlasništva od datuma rođenja.
 - b) Registracija će se izvršiti nakon što su priloženi svi dokumenti koje CROSB zahtijeva, verifikacije roditeljstva, trajnog označavanja grla i plaćene novčane naknade koju određuje CROSB.
- II) ZA ŽIVOTINJE KOJE SU U TRENUTKU PRILAGANJA ZAHTJEVA ZA NAKNADNI UPIS ŽDREBETA BILE STARE 2 ILI VIŠE GODINA, ZADRŽAVA SE PRAVO NA NEMOGUĆNOST UPISA U CROSB.

5.4. Nepotpuni zahtjevi za registraciju ždrebeta:

- I) Nepotpunu dokumentaciju za registraciju ždrebeta CROSB odbija i vraća uzgajivaču na dopunu. Ako je CROSB dokumentaciju vratio na dopunu, smatra se da postupak registracije nije ni započet.

6. IZBOR IMENA

- I) Izbor imena obavlja CROSB po postupku kojeg propisuje članak 14. IABR-a.
- II) CROSB pohranjuje popis zaštićenih imena.
- III) Uzgajivač pri predaji zahtjeva za registraciju, u Prijavi oždrebljenja navodi 3 prijedloga imena, a konačan izbor pripada CROSB-u.
- IV) Registrirati nije moguće:
 - a) Ime koje je na Međunarodnom popisu zaštićenih imena,
 - b) Ime koje sadrži više od 18 mjesta, uključujući slova i razmake,
 - c) Imena javnih osoba, bez izričitog dopuštenja te osobe ili njene obitelji, ili imena od komercijalnog značaja bez odgovarajućih dozvola,
 - d) Imena koja završavaju sa znamenkama,
 - e) Imena koja u potpunosti ili djelomično sadrže inicijale, brojeve, rastavnice, točke, zareze, znakove, uskliknike, apostrofe, kose crte, dvotočke, točke-zarez, dijakritičke znakove,
 - f) Imena koja sugeriraju ili imaju uvredljivo, nepristojno i vulgarno značenje i ako bi mogli biti uvredljivog karaktera prema religiji, politici i etničkim grupama,

- g) imena koja se pišu ili izgovaraju isto ili slično kao ime koje se nalazi na popisu zaštićenih imena, ili kao registrirano ime grla koje je mlađe od 10 godina, a ne nalazi se na tom popisu,
- h) imena koja počinju sa bilo kojom oznakom da nije slovo.
- i) imena pod kojima su već registrirana polubrača ili roditelj konja koje se imenuje.

- V) Prihvaćeno ime upisuje se u Identifikacijski dokument grla (ID).

7. PRAVILA KONTROLE UZGOJA

- I) Ždrijebe je moguće registrirati samo ako je:
 - a) Rezultat pripusta pastuha i kobile registriranih kao ždrebud u priznate matične knjige (Stud Book) ili ako su oba ili jedan od roditelja unaprijeđeni iz Non-Thoroughbred registra pod uvjetima koja nalaže Članak 13, paragraf 4.1. IABR-a.
 - b) Rezultat kopulacije pastuha i kobile, interakcijom penisa i ejakulacijom sjemena u reproduktivni trakt. Kao pomoć pri parenju dio ejakulata pastuha koji je opasao kobilu i koji je nastao tijekom tog parenja može se netom nakon skoka vratiti u reproduktivni trakt opasane kobile.
 - c) Porođaj novorođenog ždrebeta mora se odviti iz tijela iste kobile u kojoj je novorođenče i začeto. Ždrebud koja su rezultat umjetnog osjemenjivanja, embriotransfera, kloniranja ili bilo kojeg drugog oblika nespomenute genetske manipulacije, ne mogu se registrirati u registar engleskog punokrvnjaka (Thoroughbred Stud Book) odobren od strane međunarodnog povjerenstva (International Stud Book Committee).

8. ODBIJANJE REGISTRACIJE

- I) Dostavljena dokumentacija za registraciju ždrebeta mora biti naknadno potvrđena DNK analizom porijekla dotičnog ždrebeta. Ukoliko se DNK analizom utvrdi nesukladnost s dokumentacijom za registraciju ždrebeta, odbija se postupak registracije ždrebeta u CROSB.
- II) Bez obzira na ispravan zahtjev za registraciju ždrebeta i na rezultat DNK analize, koji potvrđuje navedene podatke o porijeklu, CROSB zadržava pravo odbijanja registracije, ako boja ždrebeta nije skladna s bojom roditelja.

9. EVIDENCIJA PRIPUSTA

- I) Vlasnik pastuha obavezan je prije pripusta provjeriti i potvrditi identitet kobile koju će pripustiti pod svog pastuha. Identitet kobile vlasnik pastuha utvrđuje usporedbom sa ID.
- II) Vlasnik pastuha dužan je upisati u popis pripuštenih kobila, odnosno pripusni dnevnik, sve pripuste svih kobila s kompletno traženim podacima bez obzira na pasminu.
- III) Nakon pripusta vlasnik pastuha obavezan je uručiti vlasniku kobile pravilno popunjenu i ovjerenu Potvrdu o pripustu. Potvrde o pripustu vlasniku pastuha izdaje isključivo CROSB.
- IV) Na Potvrdu o pripustu vlasnik pastuha mora naznačiti izjavu kako je kobila pripuštena prirodnim putem, tj. da nije korištena metoda umjetnog osjemenjivanja, embrio transfera, kloniranja ili bilo koji drugi oblik genetske manipulacije koji ovdje nije naveden.

- V) Vlasnik pastuha mora izdati Potvrdu o pripustu za svaku kobilu pripuštenu pod njegovog pastuha.
- VI) Na kraju pripusne sezone vlasnik pastuha je dužan u CROSBa dostaviti tijekom rujna, a najkasnije do 30. rujna tekuće godine opasivanja, pravilno ispunjen Popis pripuštenih kobila (Pripusni dnevnik) i kopije Potvrda o pripustu.
- VII) Pripusna dokumentacija pastuha može biti prihvaćena i nakon tog roka, uz podmirivanje novčane naknade koju određuje CROSBa.
- VIII) Ako vlasnik pripuštenog pastuha do 31. prosinca tekuće godine opasivanja uopće ne dostavi pripusnu dokumentaciju u CROSBa, uzgojna dokumentacija pastuha za sljedeću godinu neće biti izdana, a registracija njegovih potomaka u sljedećoj godini neće biti prihvaćena sve dok se pripusna dokumentacija iz prethodne godine ne dostavi u CROSBa, te ne podmiri odgovarajuće naknade koje određuje CROSBa.
- IX) U slučaju da pastuh u jednoj pripusnoj sezoni nije opasao niti jednu kobilu, taj podatak također mora biti proslijeđen u CROSBa.
- X) Svu dokumentaciju koju je obvezno dostaviti u CROSBa popunjava isključivo vlasnik pastuha. U slučaju da je pastuh u najmu, sve obveze navedene u ovom članku preuzima pravno reguliran najamnik pastuha.

10. TESTIRANJE RODITELJSTVA

- I) Testiranje roditeljstva ždrebadi rođenih u Hrvatskoj obavlja se DNK analizom, a ako to nije moguće onda blood-typing metodom.
- II) Nakon zaprimanja uzgojne dokumentacije za registraciju ždrebeta ovlaštena osoba CROSBa uzima biološki uzorak ždrebeta u cilju testiranja roditeljstva navedenog grla.
- III) Biološki uzorak dostavlja se u ovlaštenu laboratorij koji rezultate analize dostavlja isključivo u CROSBa koji će temeljem rezultata analize, ako su zadovoljeni svi uvjeti za registraciju, registrirati ždrijebe.
- IV) Svi rezultati i dokumentacija zaprimljeni od ovlaštenog laboratorija pohranjuju se u arhivi CROSBa.
- V) U slučaju da se radi o uvezenim grlima koja prvi puta ulaze u rasplod i onima koja nisu bila DNK tipizirana prije uvoza u Hrvatsku, ovlaštena osoba CROSBa će uzorkovati biološki uzorak grive grla kako bi se u ovlaštenom laboratoriju napravila registracija DNK tipa.
- VI) U slučaju ždrebadi koja su uvezena u majci, navedeno će ždrijebe, kada god će to biti moguće, biti testirano na roditeljstvo temeljem DNK tipizacije. No, ako otac navedenog ždrebeta nije ili ne može biti DNK tipiziran u odgovornoj SBA državi u kojoj se nalazi (uginuće ili drugo), analiza testiranja roditeljstva napraviti će se temeljem blood-typing analize.
- VII) Sve troškove testiranja roditeljstva, bez obzira na metodu koja se pritom primjenjuje, kao i rizik koji proizlazi iz rezultata testiranja, preuzima vlasnik grla.

11. IDENTIFIKACIJA I OZNAČAVANJE GRILA

- I) CROSB temeljem zaprimljene dokumentacije prijave ždrebeta za registraciju utvrđuje identitet grla i izrađuje Zapisnik o identifikacijskom pregledu kopitara, te uzima biološke uzorke grla u svrhu testiranja roditeljstva.
- II) Grla koja zadovoljavaju sve kriterije za registraciju propisane ovim pravilnikom označavaju se dijagramskim i tekstualnim opisom, te aplikacijom transpondera između glave i grebena na sredini vrata na području nuhalnog ligamenta s lijeve strane.
- III) Na osnovi sve navedene dokumentacije izdaje se Identifikacijski dokument kopitara (ID). ID se izdaje nakon podmirivanja svih troškova nastalih u postupku registracije u CROSB-u. Sve troškove podmiruje vlasnik grla.

12. IDENTIFIKACIJSKI DOKUMENT KOPITARA (ID)

- I) ID se na propisan način izdaje svim grlima upisanim u CROSB i rođenim u Hrvatskoj. ID je osnovan dokument za provjeru identiteta životinje. ID se izdaje u skladu sa Pravilnikom o identifikaciji i registraciji kopitara (NN 123/09).
- II) U ID se upisuju svi relevantni podaci o grlu, uzgajivaču i vlasnicima, te se opisuju i ucrtavaju oznake na grlu (zvrkovi dlake, bijele oznake i drugo), metode dodatnog označavanja (mikročip), kao i podaci o obavljenim vakcinacijama i laboratorijskim analizama sukladno zakonskim odredbama.
- III) ID se mora vratiti u CROSBa ako CROSBa to zahtijeva. ID se nakon smrti grla obvezno vraća u vlasništvo CROSBa u roku 30 dana od smrti, koja ga pohranjuje.
- IV) Upis podataka u ID mogu učiniti samo ovlaštene osobe koje to potvrđuju potpisom i pečatom.
- V) Pri promjeni vlasništva ID se obavezno predočava u CROSBa koji promjene vlasništva evidentira u Središnji registar kopitara Republike Hrvatske i u ID-u.
- VI) U slučaju da grlo dobije dodatne oznake (promjena boje, znakovite trajne oznake uzrokovane ozljedom i sl.), vlasnik grla dužan je o tome obavijestiti CROSBa koji dopunjuje opis u ID.
- VII) Vlasnik grla obavezan je na vrijeme obavijestiti CROSBa o bilo kakvim pogreškama, propustima ili nepravilnostima u ID-u. CROSBa nije odgovoran za kazne ili naknade koje su proizašle iz netočnih podataka u ID-u.

12.1. Izdavanje duplikata ID-a

- I) CROSBa će izdati duplikat ID-a samo u opravdanom slučaju, uz pisanu izjavu opravdanja vlasnika grla i nakon podmirivanja naknade za izdavanje duplikata.
- II) Duplikat ID-a označen je posebnom oznakom koja upućuje da se ne radi o originalnom primjerku.
- III) U slučaju izdavanja duplikata zbog gubitka podataka o obavljenim vakcinacijama, laboratorijskim analizama i liječenju grla, CROSBa će u rubriku Izjave vlasnika o namjeni kopitara upisati da grlo nije namijenjeno za prehranu ljudi, bez obzira na prethodne izjave u izgubljenom primjerku ID-a.

13. IDENTIFIKACIJA I REGISTRACIJA UVEZENIH GRILA

13.1. Uvjeti za registraciju uvezenog grla

- I) Registrirati se mogu samo grla koja su uvezena iz i registrirana kao ždrebac u nekim od priznatih registara engleskog punokrvnjaka.
- II) Ako uvezeno grlo ne prati odgovarajuća uzgojna dokumentacija, neće se registrirati u CROSB.
- III) Ni pod kojim uvjetima se uvezeno grlo ne može registrirati bez Izvozne potvrde. Niti jedan drugi dokument ne može ga zamijeniti. Postupak registracije uvezenog grla u CROSB ne može se nastaviti sve dok Izvozna potvrda ili elektronska verzija iste nije pohranjena u CROSB.
- IV) Identifikacijski pregled uvezenog grla u cilju potvrđivanja identiteta je obavezan i radi se usporedbom s njegovim registriranim oznakama, a mora ga izvršiti ovlaštena osoba CROSB.

13.2. Postupak registracije uvezenog grla

- I) Prilikom uvoza grla u Republiku Hrvatsku uvoznik je dužan obavijestiti CROSB i predložiti uvoznu i uzgojnu dokumentaciju u roku od mjesec dana od uvoza životinje.
- III) Ovlaštena osoba CROSB obavlja identifikacijski pregled životinje i potvrđuje njegovu istovjetnost s uzgojnom i uvoznom dokumentacijom grla.
- IV) U slučaju da za uvezeno grlo, registar države rođenja ili registar zemlje izvoznice ne posjeduje DNK karticu ili blood-typing karticu grla, ovlaštena osoba CROSB uzet će biološki uzorak u cilju registracije DNK tipa u ovlaštenom laboratoriju.
- V) Postoji li bilo kakva sumnja u potvrđivanju identiteta uvezenog grla, CROSB će napraviti ponovnu tipizaciju (DNK ili blood-typing) u cilju usporedbe s DNK ili blood-typing karticom zaprimljenom iz registra države rođenja ili registra zemlje izvoznice.

13.3. Naknadni zahtjevi za registraciju uvezenog grla

- I) O svakom uvozu konja pasmine engleski punokrvnjak na prostor Republike Hrvatske uvoznik/vlasnik mora u roku mjesec dana obavijestiti CROSB. U slučaju kasnijeg zahtjeva za registracijom uvezenog grla, CROSB će izvršiti registraciju uvezenog grla uz dodatnu novčanu naknadu.

14. IZVOZ

- I) Prije svakog izvoza grla iz Republike Hrvatske vlasnik mora podnijeti zahtjev za izdavanje izvozne dokumentacije, dostaviti ime i adresu kupca, te svu ostalu dokumentaciju koju CROSB zahtijeva.
- II) Vlasnik grla obavezan je prije izvoza grla dostaviti ID, kako bi se u slučaju trajnog izvoza ovjerio za putovanje u zemlju uvoznicu.
- III) Ako ID za grlo do dana podnošenja zahtjeva za izdavanje izvozne dokumentacije nije izdan, CROSB će izdati ID prije izvoza grla.
- IV) Ako se grlo izvozi trajno, CROSB na temelju pismenog zahtjeva vlasnika izdaje Izvozna potvrdu (Export Certificate), te je sa DNA potvrdom šalje direktno priznatom registru za vođenje

matičnih knjiga engleskog punokrvnjaka države u koju se grlo izvozi, nakon što vlasnik podmiri sve naknade izdavanja i ovjeravanja izvozne dokumentacije.

- V) Ako se grlo izvozi privremeno u uzgojne svrhe (do najviše 9 mjeseci) CROSB će na temelju pismenog zahtjeva vlasnika izdati dozvolu za uzgojnu migraciju (Breeding Clearance Notification - BCN) ili dozvolu za općenitu migraciju (General Notification of Movement - GNM). Prije povratka vlasnik je potreban u priznatom registru privremenog boravka konja tražiti novu dozvolu (BCN ili GNM) u kojoj su navedeni potrebni podaci.

15. UGINUĆE GRILA

- I) Vlasnik grla obavezan je prijaviti svako uginuće registriranog grla u CROSB, bez obzira je li za grlo već izdan ID ili je u postupku registracije. ID izlučenog grla mora se u roku 30 dana od smrti grla vratiti u CROSB koja ga arhivira.
- II) Prijavu izlučenja grla mora ovjeriti ovlašteni veterinar.

16. VLASNIŠTVO IZDANE DOKUMENTACIJE

- I) Svi dokumenti, certifikati i Identifikacijski dokumenti koje izdaje CROSB vlasništvo su CROSB i moraju se dostaviti na zahtjev CROSB ili u roku 30 dana od izlučenja grla.

17. PUBLIKACIJE

- I) Matična knjiga engleskih punokrvnjaka Republike Hrvatske izdaje se najkasnije svake četiri godine uz dopune svake godine.

RULES FOR KEEPING CROATIAN THOROUGHBRED STUD BOOK

1. GENERAL PROVISIONS

- I) The Croatian Agricultural Agency (hereinafter: Croatian Stud Book Authority, CROSB) has been nominated, to keep the Croatian Stud Book of Thoroughbred Horses (hereinafter: Croatian Stud Book, CROSB). The CROSB independently keeps the Stud Book and regularly publish the Stud Book.
- II) The CROSB contains:
 - a) an index of all horses registered in the CROSB,
 - b) a list of mares and offspring,
 - c) a list of stallions,
 - d) a list of imported horses,
 - e) a list of exported horses,
 - f) obituary of horses,
 - g) list of names for horses appearing un-named in previous Volumes,
 - h) addenda and errata.
- III) All animals registered with the CROSB are, as required by the ISBC (International Stud Book Committee) registered under the life number used in records in breeding, competition and transport.
- IV) In keeping the pedigree records, the CROSB abides by all the rules and agreements of the ISBC as prescribed by the International Agreement on Breeding and Racing – IABR in Articles 3., 4., 12., 13.,14. and 15.

2. CONDITIONS OF ENTRY TO THE CROSB

- I) The following Thoroughbred may be registered in the CROSB:
 - a) those which are offspring born in Croatia of stallions and mares which themselves have been registered in an approved Stud Book by the ISBC,
 - b) those which were duly registered as foal in an approved Stud Book and have been properly imported into Croatia.

3. IDENTITY OF HORSES

- I) Prior to registration of a stallion or mare in the CROSB as a thoroughbred horse, it is necessary to establish – confirm its identity:
 - a) the horse owner must submit documentation for registration of the stallion or mare in the list of stallions or mares by providing the following information: name of horse, colour, age, sex, origin, breeder, owner, country of birth, information about ownership changes and the secondary markings (brand, microchip transponder, other).
 - b) the CROSB confirms all information about previous owners according to the Passport and valid documents of sale.
 - c) the CROSB check the horses markings.
 - d) analysis sample is taken by the authorized breeding organization (hair sample) or authorized veterinarian (blood sample) and the analysis is conducted in an authorized laboratory.

- II) In the case the horse in question is imported, born in a foreign country, it is necessary to submit Passport. An Export Certificate of the imported horse is directly transmitted by the Stud Book Authority of the exporting country. Information, listed in the Passport, must be identical to the information listed in the Export Certificate. The CROSB A retains the Export Certificate.
- III) For breeding horses imported for a limited time (less than 9 months), it is necessary to submit endorsed Passport by the SBA or to assure that SBA of the exporting country where the horse was last registered issue Breeding Clearance Notification (BCN).
- IV) No animal may be registered as breeding stock retrospectively, after it has died, except at the discretion of the CROSB A and only if the animal's DNA or blood type has been officially established.

4. REGISTRATION OF OWNERSHIP

- I) CROSB A will register ownership transfer only in case when Identification document is submitted together with the Ownership certificate and with the appropriate proof of ownership transfer as the CROSB A deems acceptable. The CROSB A will require the full name, address, nationality and contact details of the new owner.
- II) Transfer of ownership can be registered after all fees have been paid.
- III) Every ownership transfer is registered in Identification document of the horse in question.
- IV) Ownership can be registered only to one owner, who is responsible for reporting all information and changes to the CROSB A. If the horse is in ownership of one or more owners, these owners will regulate mutual relations with legal contract that has to be submitted to CROSB A.

5. REGISTRATION OF FOALS BORN IN CROATIA

5.1. Registration procedure:

- I) In order to register the offspring of mares on the CROSB list, the breeder must meet the following requirements:
 - a) Submit to the CROSB A a properly filled foaling report with covering certificate with dates of all matings in the oestrus cycle in which the mare conceived. Covering journal has to be submitted to CROSB A in time-limit (till 30th September in the year of covering) for endorsement. Foaling report is verified by the signature of mare owner/lessee and the Covering certificate and Covering journal by stallion owner/lessee.
 - b) If the mare or stallion is on lease, mentioned documentation (foaling report, covering certificate, covering journal) can be certified by the lessee with the necessary submission of the lease document between the owner and the lessee of the mare or stallion to CROSB A. The lessee of the horse takes over all obligations to submit breeding documentation to CROSB A according to these rules.
 - c) Before the first covering, the stallion owner/lessee is obligated to confirm the identity of the mare with comparison to her passport. Stallion owner/lessee guarantees with his signature the credibility of information written on covering certificates as well as the fact that he has checked the identity of mare before covering. The stallion owner signs a declaration that

- the mare was naturally covered and that Artificial Insemination, Embryo Transfer or Transplant, cloning or any other form of genetic manipulation was not used.
- d) If the mare was covered by two or more stallions, it is also necessary to submit all covering certificates.
- e) Foaling report must be submitted no later than 28 days following foaling. The foaling report must be correctly and completely filled out with all requested information (date of foaling, gender, name, origin, ownership and detailed description of the foal including colour description, white markings and hair whorls, etc.). Foaling report must be certified with the signature of the mare owner/lessee. Name of the foal can be given at birth (3 suggestions) or at latest till reproduction or sports activity.
- f) In the case of twins, this information must be filled in on the foaling report. Each twin has to be reported on a separate foaling report. Only one covering certificate is required, and all three documents are submitted together.
- g) A foaling report must also be submitted in the case of still-birth or death after foaling. In the case the mare was barren, it is necessary to report the barrenness with the submitted covering certificate. If the mare was covered and then died, the covering certificate must also be submitted together with the death certificate. The foaling report is also required if a mare was covered by a stallion of another breed.
- h) In the case that the breeder does not submit the required documentation, the CROSB column on mare offspring for the current year will state „no return“.
- i) Only those foals which are reported with full documentation and following successful parent verification shall be registered.
- j) Registration of all foals in CROSB shall be completed following receipt by CROSB A of all documents as described in these rules, correct parent verification by DNA analysis and, identification report and fees.
- k) Established proof of origin of the foal on the basis of DNA analysis is submitted by the approved laboratory to CROSB A, which archives the document. After the proof of origin is delivered to CROSB A, and identification report and microchipping of the foal were done, the foals ID (passport) can be issued.
- l) Pay the fee for all tasks in the process of the registration of the foal.
- II) The terms listed above are valid for the foals registered properly to CROSB A in the period of 28 days after the date of birth.
- III) CROSB A will not accept the application for the registration of the progeny if the legal owner of the mare is not recorded in her passport.
- IV) Authorized person in CROSB A will make permanent identification of all foals born in Croatia by diagram markings, textual markings and with application of a microchip transponder.
- V) Responsibility for the submission of all documents that are obligated to submit to the CROSB A in the purpose of identification registration falls on the mare owner. In case that the mare is on lease, all obligations noted in this paragraph will pass to legally regulated mare lessee. In that case the lessee will be registered as the breeder of such newborn foal.
- VI) Breeder of the foal is legal or physical registered owner of the mare at the time of foaling.

5.2. Registration of foals that are progeny of stallions covering abroad

- I) If the newborn foal is progeny of stallion domiciled abroad, the mare owner is obligated to submit with the foaling report original sample of covering certificate issued by verified stallion owner/lessee.
- II) Registration of foals is similar to Registration procedure according to point 5.1.

5.3. Late applications for registration

- I) For the registration of foals for which the registration process was not properly carried out as in the paragraph 5.1., the breeder may register the foal if the following conditions are satisfied:
 - a) The foaling has to be nonambiguous confirmed by the certified owner declaration. All necessary documents with handwritten signatures as regulated in this rules have to be sent to CROSB together with the proof of the sequence of ownership for the date of birth.
 - b) Registration will be done after all documents which CROSB demands are delivered, parentage verification and marking of the horse are conducted and all fees set by CROSB are paid.
- II) FOR ANIMALS WHICH ARE 2 YEARS OLD OR OLDER AT THE TIME THE REQUEST FOR SUBSEQUENT REGISTRATION IS SUBMITTED WE RESERVE THE RIGHT NOT TO REGISTER IN THE CROSB.

5.4. Incomplete requests for foal registration

- I) Incomplete documentation for foal registration shall be rejected by the CROSB and returned to the breeder for supplementation. If the CROSB returns the documentation for correction it is considered that the registration process did not begin.

6. SELECTION OF NAMES

- I) The name selection is conducted by the CROSB by the procedure proscribed by Article 14 of the IABR.
- II) The CROSB files a list of protected names.
- III) Upon submission of the registration request, in the Foaling Report the breeder must list 3 proposed names, with the final selection belonging to the CROSB.
- IV) It is not possible to register:
 - a) a name which appears on the International List of Protected Names,
 - b) a name with more than 18 characters, including signs and spaces,
 - c) a name of a public person, without the person's or their family's permission, or names of commercial significance without the appropriate permission,
 - d) a name which is followed by numbers,
 - e) a name which is made up entirely of or include initials, figures, hyphens, full stops, commas, signs, exclamation marks, inverted commas, forward or back slash, colon and semi-colon, diacritical marks,

- f) a name which are suggestive or have a vulgar, obscene or insulting meaning; names considered in poor taste; or names that may be offensive to religious, political or ethnic groups,
 - g) a name which is in pronunciation identical or similar to a protected name or a name registered for a horse whose year of foaling is within 10 years of that of the horse in question,
 - h) a name which begins with sign other than a letter.
 - i) name which is already registered to a sibling or parent of the horse in question.
- V) The accepted name is registered in the Passport of the horse.

7. CONTROL OF BREEDING

- I) A foal may only be registered if it is:
 - a) the product of a mating between a sire and dam, both of which are recorded as foal in an approved Thoroughbred Stud Book or either or both must have been promoted from a Non-Thoroughbred register under the terms set out in Article 13 paragraph 4.1 of the IABR.
 - b) the result of a Stallion's mating with a Mare which is the physical mounting of a Mare by a Stallion with intermission of the penis and ejaculation of semen into the reproductive tract. As an aid to the mating a portion of the ejaculate produced by the Stallion during such mating may immediately be placed in the reproductive tract of the Mare being bred.
 - c) A natural gestation must take place in, and delivery must be from, the body of the same Mare in which the Foal is conceived. Any Foal resulting from or produced by the processes of Artificial Insemination, embryo Transfer or transplant, Cloning or any other form of genetic manipulation not herein specified, shall not be eligible for recording in a Thoroughbred Stud Book approved by the International Stud Book Committee.

8. REJECTION OF REGISTRATION

- I) The submitted documentation has to be verified on DNA parentage testing. If the DNA analysis isn't identical to submitted documentation for foal registration, the registration procedure to CROSB will be refused.
- II) Regardless of the proper request for registration of a foal, the CROSB reserves the right to reject the registration if the colour of the foal does not correspond to the colour of the parents.

9. COVERING RECORDS FOR STALLIONS

- I) The stallion owner is obligated to check the identity of mare that will be covered to his stallion. The identity verification is done against mares Identification document (Passport).
- II) The stallion owner is obligated to note in the covering journal all covered mares with complete information regardless the breed of the covered mare.
- III) After covering, the stallion owner is obligated to submit a properly filled out and verified covering certificate to the mare owner. Covering certificates are issued to stallion owners only by the CROSB.

- IV) On the Covering certificate the stallion owner signs a declaration that the mare was naturally covered and that Artificial Insemination, Embryo Transfer or Transplant, cloning or any other form of genetic manipulation was not used.
- V) The stallion owner has to issue a covering certificate for each mare covered by his stallion.
- VI) At the end of the covering season, the stallion owner is obligated by no later than 30th September of the current year to submit to CROSBa a correctly filled out covering journal (list of covered mares) and a copies of all issued covering certificates (covering documentation).
- VII) The covering documentation can be submitted after 30th September with the fee set by the CROSBa.
- VIII) If the stallion owner does not submit the covering documentation by the 31st December to the CROSBa, breeding documents for that stallion for the next year will not be accepted, and registration of that stallion's progeny in the next year will not be accepted until such time as the covering documentation from the previous year have been submitted together with the fees set by CROSBa.
- IX) In case the stallion has not covered any mare in one breeding season this also has to be reported to CROSBa.
- X) Responsibility for the submission of all documents that are obligated to the CROSBa for the purpose of recording all coverings falls on the stallion owner. In case that the stallion is on lease, all obligations noted in this paragraph will pass to legally regulated stallion lessee.

10. PARENTAGE VERIFICATION

- I) Parentage verification for the foals born in Croatia is performed by DNA analysis. In case this is not possible the analysis will be performed by blood-typing method.
- II) After breeding documents for registration are submitted, the CROSBa technician will take biological samples from the foal for parentage verification.
- III) Biological sample is sent to certified laboratory, which delivers the analysis results solely to CROSBa that will according to analysis results and if all registration conditions are fulfilled, register the foal.
- IV) All results and documentation submitted by certified laboratory is archived in CROSBa.
- V) In case of imported horses which will enter breeding for the first time and which have not been DNA typed before their importation to Croatia, CROSBa technician will take biological samples for DNA typing by the certified laboratory.
- VI) In case of mares imported in foal, the imported in utero foal will be parentage verified by DNA typing whenever possible. But if the sire domiciled abroad has not been and cannot be DNA typed by the registering authority responsible for the stallion (case of death or other), parentage verification will of necessity be carried out by blood-typing.
- VII) The owner is responsible for all expenses and risks that arise from taking biological samples and parentage verification, regardless of the method used.

11. IDENTIFICATION AND MARKING OF HORSES

- I) CROSB on behalf of submitted request for foal registration determines the foal's identity and makes Identification report and takes biological samples for parentage verification.
- II) For horses that are acceptable for registration according to these rules diagram markings and textual markings will be made and a microchip transponder will be inserted in the left side, between poll and withers in the middle of the neck in the area of the nuchal ligament.
- III) According to all listed documents Identification document (passport) will be issued. Passport is issued after all fees in registration procedure have been paid by horse owner.

12. IDENTIFICATION DOCUMENT (ID) - PASSPORT

- I) ID (passport) is issued for all horses registered in CROSB and born in Republic of Croatia. ID is primary document for checking identity of an animal. ID is issued in accordance to Ordinance on identification and registration of equidae (OG 123/09)
- II) ID registers all relevant information of the horse, breeder and owners, identification diagram (hair whorls, white markings etc.), additional markings (microchip transponder, brands), vaccination records, laboratory analysis according to legal directives in Republic of Croatia.
- III) ID has to be returned to the CROSBa on its demand. When the horse dies, ID has to be returned to CROSBa in the period of 30 days from the date of death, where it will be in archive.
- IV) Information can be entered in ID only by authorized person who certifies it with signature and stamp.
- V) When the horse changes ownership, ID has to be returned to CROSBa which enters the new ownership information in Central register of equidae in Republic of Croatia and in ID.
- VI) In the case when on the horse appears new markings (change of colour, permanent markings caused by injury etc.), owner has to inform CROSBa which will supplement the ID.
- VII) Owner is obligated to inform CROSBa in time about any kind of errors, omission or irregularities in ID. CROSBa is not responsible for any penalties or fees caused by inaccurate information in ID.

12.1. Issuing duplicate passports

- I) CROSBa will issue duplicate passports if satisfied with the circumstances of loss of the original and payment of required fees. The circumstances have to be submitted in written form by the horse owner.
- II) Duplicated passport will be marked with a suitable duplicate stamp.
- III) When duplicated passport is issued, due to the loss of vaccination records, laboratory analysis and medical treatment, CROSBa will in the owner's declaration endorse that the horse is not intended for slaughter for human consumption regardless of previous declarations and lost passport.

13. IDENTIFICATION AND REGISTRATION OF IMPORTED HORSES

13.1. Qualification

- I) Only horses imported and are registered as foal in approved Thoroughbred Stud Book.
- II) If not accompanied by the proper documentation, the imported horse may not be registered by CROSB.
- III) Under no circumstances may an imported horse be registered without Export Certificate. No other document will suffice. No processing of further paperwork for an imported horse can begin until the Export Certificate or an electronic version of the same is on file with CROSB.
- IV) An inspection to verify the identity of the imported horse in question by comparison of its registered markings is necessary, and will be carried out by technicians of CROSB.

13.2. Registration procedure

- I) The importer is obligated to notify CROSB when the horses are imported to Republic of Croatia and has to submit import and breeding documents in the period of one month from the date of import.
- III) Authorized CROSB technician makes identification check of the animal and confirms his similarity with breeding and import papers of the horse.
- IV) In case the Stud Book Authority of origin or the Stud Book Authority of the exporting country does not have DNA or blood-typing card on archive, authorized CROSB technician will take a biological sample for registration of DNA type in certified laboratory.
- V) In case of any doubt in confirming identity of the imported horse, CROSB will make fresh registration of DNA type (or blood-typing) for comparison to DNA or blood-typing card submitted by the Stud Book Authority of origin or Stud Book Authority of the exporting country.

13.3. Late requests for registration of imported horses

- I) Every import of horses to the territory of Republic of Croatia has to be reported by the owner in the period of one month to CROSB. In case of late requests for registration of imported horses, CROSB will make the registration of horses with the additional fee.

14. EXPORT

- I) Prior to export from Republic of Croatia the owner is obligated to submit a request for issuing export documentation, name and address of purchaser and all other documents required by CROSB.
- II) The owner is obligated to submit the Identification document (passport) prior to export, so it could be in case of permanent export endorsed for travel to country of import.
- III) In case that Identification document has not been issued till the date when the request for issuing export documentation has been submitted, CROSB will issue passport prior to the date the animal will be exported.
- IV) If the horse is exported permanently, CROSB will on the written owners request issue Export

Certificate with the DNA certificate and send it directly to approved Stud Book Authority of the country of destination, after the owner pays all fees for issuing and endorsing export documentation.

- V) If the horse is exported temporary for breeding purposes (9 months maximum), CROSB will on the written owners request issue Breeding Clearance Notification (BCN) or General Notification of Movement (GNM). Before returning, the owner of the horse should apply to the Stud Book Authority of the country of temporary residence for a further BCN or GNM to be supplied to the SBA of the country of permanent residence providing requested details.

15. DEATH OF THE ANIMAL

- I) Owner is obligated to report death for all horses registered in CROSB, regardless if the horse have issued Identification document (Passport) or if it is in the registration procedure. Identification document (Passport) has to be submitted to CROSB for archive in the period of 30 days from the date of death.
- II) Death report has to be verified by the certified veterinarian.

16. PROPERTY OF ISSUED DOCUMENTS

- I) All documents, certificates and Identification documents (Passports) issued by the CROSB are the property of CROSB and have to be submitted to CROSB on their request or in the period of 30 days from death of the animal.

17. PUBLICATION

- I) Croatian Stud Book of Thoroughbred is published every four years with yearly supplements.

POPIS RASPLODNIH KOBILA I POTOMSTVA

List of Broodmares and their produce

Uzgajivač je pravna ili fizička osoba koja je vlasnik kobile u trenutku ždrebljenja. Ime uzgajivača je navedeno u opasci o ždrebetu. Opaska „no return“ se piše u slučaju kada SBA ne dobije izvještaj o ždrebljenju ili da na osnovi primljene potvrde o ždrebljenju nije moguće unijeti drugačiju opasku s obzirom na „Pravila o vođenju matične evidencije konja pasmine engleski punokrvnjak u Republici Hrvatskoj“.

Breeder is legal or physical person who is owner of the mare in the moment of foaling. Name of the breeder is indicated in the note. "No return" is written when SBA doesn't receive foal register form or in the case that it isn't possible to enter any other note regarding to the "Rules for keeping Croatian Thoroughbred Stud Book".

AFRODITA	
ch., 1998, bred by Petar Đulabić, by Šurda (YUG), out of Africa, by Bali Dancer (IRE). See CRO SB Vol. 1, suppl. 1, p. 110.	
2011 foal by Arabian stallion
